SOUTH CAROLINA-BASED DIVERSIFIED PLASTICS OPENS 2ND LOCATION IN GEORGIA

Latta, SC – June 7, 2017 – Rotational molding manufacturer Diversified Plastics, Inc., located at 1309 Highway 917 West in Latta, has opened a second manufacturing location at 490 Sibley Avenue in Union Point, Georgia.

At this new facility in Georgia, Diversified Plastics manufactures their proprietary rotational molding product line and custom rotomolding products. DPI produces waste and recycling plastic containers (2-, 4-, 6- and 8-yard), material handling plastic carts (linen and utility), industrial plastic poly drums (15-, 30- and 55-gallon) and custom rotomolding products (such as safety blanket holders for electric companies and water tanks for chemical companies).

The 35,000 sq. ft. rotational molding facility in Georgia consists of two Rotoline rotomolding ovens, with plans to add more machines. This location also utilizes a large outdoor storage area.

Since 1976, Diversified Plastics has been the leading rotational molding manufacturer of custom and standard material handling carts and plastic storage containers. DPI specializes in material handling carts for the industrial, textile, hospitality, laundry, agricultural and marine industries, plus waste and recycling plastic containers for restaurants, sports venues and stadiums, apartment and condominium complexes, and corporate offices.

DPI material handling plastic carts are lightweight, durable and low-maintenance. Meanwhile, their large waste and recycling plastic containers offer superior functionality and aesthetics compared to conventional steel and aluminum dumpsters.

In addition to providing custom material handling solutions and waste containers for any application, DPI's diverse product assortment includes bulk material handling carts, plastic utility carts, laundry carts, bulk containers, tote boxes, round containers, spring platform trucks, elevated carts, easy access carts, tilt trucks and more.
