DIVERSIFIED PLASTICS INC. FEATURED IN PLASTICS INDUSTRY MAGAZINE FOR THEIR NEW ROBOTIC CELL

Latta, SC- December 17, 2019 - Diversified Plastics Inc., a leading international rotational molder based out of Latta, South Carolina, was featured in Plastics Machinery Magazine for their new robotic cell.

This robotic cell machine was created by Advanced Integration Technology, LLC. and its function is to assist in the trimming processes at Diversified Plastics Rotomolding plant. The capabilities of the robotic cell allow the trimming to be done safely and more efficiently with less scrap. This manufacturing process can be dangerous, so the robots can complete this in a safer and quicker manner than a human.

This robot has the ability to auto adjust to accommodate multiple shaped plastic parts at different dimensions, allowing the robot to assist in the production of many different rotational molds.

“We are excited that our company has been featured in the plastic machinery industry for our cutting-edge technology,” states Tommy Wallace, President of Diversified Plastics. “The new robotic cell helps us to manufacture our plastic products more efficiently and safely, as well as allowing us to expand our plastic product lines.”

Since 1976, Diversified Plastics has been the leading rotational molding manufacturer of custom and standard material handling carts and plastic storage containers. With two locations in Latta, South Carolina and Atlanta, Georgia, DPI specializes in material handling carts for the industrial, textile, hospitality, laundry, agricultural and marine industries, plus waste and recycling plastic containers for restaurants, sports venues, stadiums, apartment and condominium complexes, plus corporate offices.

In addition to providing plastic material handling carts and waste containers for any application, DPI's diverse product assortment includes bulk material handling carts, plastic utility carts, laundry carts, bulk containers, tote boxes, round containers, spring platform trucks, elevated carts, easy access carts, tilt trucks and more.
